

I came to Salem to speak for Ride Connection and Metropolitan Family Service. This service to the community of older adults is a convenience for us to get to the grocery store. People come in walkers as well as wheel chairs and canes. It makes it easy to get our groceries. I myself have arthritis in my knees and need the help of Ride Connection to get my groceries. On Monday we explore the beauty of Oregon. Ride Connection and Metropolitan Family Service is concerned for our well being. Our driver plans such interesting excursions that that refresh our souls by the time we arrive back home. Please continue to support Ride Connection with funds for its continuance. Thank you for your help it is much appreciated.
