

**Subject:** SB 442 and 895

Hello, my name is Kira Belan and I am a mother of two. Ever since the beginning of my first pregnancy I have spent a lot of time researching and striving to make the healthiest decisions for my family from birth to diet healthcare, vaccines, etc. The fact that all of my hard work is potentially being jeopardized by SR-442-3 is very disturbing and upsetting. I feel like it is not as much about whether or not we choose to vaccinate, but that we are able to do the research and be given all of the information and then make an educated decision on what is best for our child. This bill takes my choice out of the matter and puts it in the hands of the government; someone who knows nothing about my child, their sensitivities, strengths, family history and overall health. This bill takes away our basic human and civil rights and what this country was founded on. I urge you to please oppose SB 985 and SB-442-3.

Please let me know what your standpoint is on this bill and how you will vote.

Thank you for your time.

Sincerely,

Kira Belan
