

**Subject:** SB895

Please note that I am opposed to SB895. I have found that working with my own doctor regarding vaccinations has been a positive experience. All of my children are fully vaccinated with the exception of the youngest who is currently waiting due to the compromised immune system of her older sister. This bill could require my daughter to meet with a stranger who may or may not understand the situation in our home. Thank you for your consideration and for the work you do on behalf of the citizens of the state of Oregon.
