Subject: HB3470

As a lifelong Oregonian, clean air and environmental stewardship is important to me. Our state has a tradition of being ahead of the curve where environmental issues are concerned. Please ensure that the House and Senate vote on HB 3470 bill this session. House E & E Committee HB 3470 provides state of Oregon's support for responsible Greenhouse Gas Emissions reductions. We believe this bill deserves a vote and consideration by the Oregon Legislature. It would responsively set required reductions in Green House Gas Emissions. The bill is Oregon's opportunity to take effective leadership in Climate Stability and Climate Change Justice for all Oregonians.

Thanks,
Emily Medley
