Dear Committee:

I am writing in support of HB3417, which offers important changes to the Regional Solutions program.

Currently the process allows for a seven day comment period, which is a mockery of public participation. We really need the change to the thirty day comment period so that the public can be heard. I realize that there is an urgency to some efforts at economic development, but it is crucial that we choose well rather than quickly. Let many voices be heard!

I also think it important to have a seat at the table for the conservation community. This will help insure that we get all sides of a proposal.

Thank you for the opportunity to comment,

Eva Eagle
