Subject: Support HB 3417

Hello Mr. Davidson,

Please add this to your records to the public hearing today for HB 3417.

HB 3417 addresses the Regional Solutions program in a positive way.

I am all for more transparency regarding plans for economic development. I agree that the public should have time to comment on proposals prior to them being approved.

I also would like to see someone on the committee that gives an educated voice to open space, wildlife and water issues.

Thank you,  
Kimry Jelen
