**Subject:** pass H.B.3417

Ian Davidson and committee members,

Lets make sure that the voices of local people affected by Oregon's Regional Solutions program are heard. To help insure this a thirty day comment period would benefit this program. Also more transparency is needed in regards to specific plans for the economic development in qualifying Oregon counties. Any committees should include voices from varied interests to keep the balance between growth and conservation in perspective. Please pass H.B.3417.

Tygh Redfield
