Subject: SB 748

Even though SB 748 could be misconstrued as bolstering populations impacted by a bad (though recovering) economy, this bill is actually an attempted to break the UGB and land use planning programs across a large portion of the state. Land use planning is critical in protecting farm, forest, rural and urban environments. Once any part of our Oregon landscape is decimated, it is gone. What is don't can't be undone. Stop this Bill in its tracks.

Thank you for your consideration.
