Subject: HB3250

I am urging support for this legally sound bill to cap carbon emissions and bring our greenhouse gas emissions to 85% below 1990 levels by 2050 and avoid the 2 degree raise in global average temperatures needed by that date.

I am in favor of HB 3250 over HB 3470 or HB 3252 due to its more Inclusive nature and resistance to future repeal attempts.

Thank you, Frank Jones
