**Subject:** SB 716

To Senate Environment Committee:

Thank you for hearing all the testimony against SB 716 last week. However we are very disappointed that your committee has posted a “possible” work session on this Bill during the coming week. This is despite the overwhelming evidence from every quarter, that what Metro and Oregon economic development needs is investment in our existing industrial land supply - not raw land.

We urge you to **not** hold the work session.
