

I strongly oppose all of the new legislation on firearms ownership and responsibility.

These laws are targeting all law abiding gun owners with no rationale. We have many laws already on the books about firearms, yet do not regularly enforce those laws. Criminals will not adhere to additional laws created about legal gun ownership, just as they do not adhere to them currently.

I appreciate the efforts on behalf of all lawmakers in the state, but do not support any that infringe upon our Second Amendment Rights. As lawmakers, the first rule is to enforce the Constitution. Your proposed gun ownership laws are in complete defiance of the Constitution.

As a long time Oregon resident and continued taxpayer, I urge all of our lawmakers to quit wasting time on new laws around legal gun ownership, and see how this time and money could be better spent enforcing the laws we have and improving our children's education as they are our future leaders.
