

Hello, Senate Judiciary Committee.

Allowing a minor access to a firearm is NOT a crime of any kind...it is providing access to 'life safety equipment' for the use of a minor who may find themselves alone, in danger and, in the absence of a parent or guardian.

To deny unencumbered access to a minor of 'life safety equipment' or to take action to make such 'life safety equipment' not readily available is in itself an act of intentional endangerment of the minor!

Time for a thoughtful and intelligent review of SB - 945, instead of a vengeful disregard of our 2nd Amendment!

Thanks for your time folks.

Bruce
