

What constitutes a minor?

Scenario: Parents are both at work, 16 year old daughter home alone. Intruder breaks in and she defends herself with the loaded .38 in her parents' bedside table. Are the parents now convicted of the crime of enabling their daughter to protect herself?

Hogwash. I'm really tired of all this big brother stuff, which was never the intention of our founding fathers.

Thank you for this opportunity to express my feelings on this subject.

Sincerely yours,  
Victoria
