

One should take note of how this is written, firearms are to be locked up from minors. That means anyone under 21 yr. old !!!!!!!

May I remind you that people can buy a hunting license at age 14, they can vote, & join the service at age 18, & many are married

before the age of 21. As for people with mental problems I have to question the people that wrote this bill. It scares the hell out of me

that they are serving in our legislature, much less driving a car, & maybe even have access to firearms !!!!!!!

Sincerely, Karl Skou
