Subject: I Strongly Oppose HB 3515 (2015)

Hello House Agriculture and Natural Resources Committee,

Please do not push forward with HB 3515 - the bill that prohibits State Fish and Wildlife Commission from including gray wolf on list of threatened or endangered species. Grey wolves are indigenous to Oregon and once thrived here before being eradicated. They are just now barely making a comeback in Oregon. Grey wolves belong here - they are part of a healthy ecosystem. Grey wolves keep rodent populations under control and deer and elk populations healthy by eliminating sick and injured animals. Please allow our native grey wolves to be protected from being poisoned, trapped, and hunted, thank you.

Sincerely,
Stephanie
