

Please note; I appreciate the courage it will take for you to stand against the pressure that will be exerted by your party on SB 945. There is no way to expect people who break the law to abide by any law. The only thing to be accomplished, is to infringe upon honest law abiding citizens. Please stand with me by opposing laws that take away our rights under the constitution. Let's enforce existing laws already in place to go after law breakers.

Sincerely,
Don Kowalkowski
