Subject: SB 716 work session

To the Senate Environmental Committee,

I urge you to not hold a work session on SB 716 on Wednesday, April 15. The overwhelming testimony received during the first hearing shows there is no need for this bill. Each of the metro-area counties already has suitable large-lot industrial sites to develop.

I live in a rural area of Washington County that is adjacent to the UGB of the City of North Plains. I am well aware of the pressures of growth and the need to contain it. Our current laws do that.

Yours truly,

Pat Wolter
