Subject: "No" on HB 2666-1 (resend with my address)

Chair Clem and Members of the Committee:

I live in an area that aggregate companies love to mine. There are three mines I will have to live with when they start operating.

It is hard to believe that this bill even exists. The aggregate industry already gets everything it wants. It looks to me that now the industry want to cut out the citizens' right to even have input.

The Oregon legislature should not be helping the industry do this. This is not government of the People for the People, and by the People.
