Subject: House Bills 3515, 2050, 3140, 3188 and 3514

House Bill 3515 would prohibit Oregon from *ever* protecting gray wolves under the state Endangered Species Act. And the other bills are equally awful for wildlife. They unfairly target cougars and other native predators while overlooking the critical role these species play in maintaining healthy ecosystems.

Please vote no on these bills. Protect our wildlife.

Thank you,
