Beth, I'm contacting you today to let you know I have a strong personal interest in this bill passing; I have holes in my upper lungs and must use oxygen at night and when flying!!! This is an improvement for me I was using it full time until 2 yrs ago the next steps are lung reduction surgery and then lung transplants!!! My time is limited!!! I believe we all must step forward to help solve this problem created by all of us(please approve this bill today and use my testimony to encourage all others to do the same!! God Bless and thank you!!! Sue Elliott
