

It's time to account for the price of pollution from dirty fossil fuels. When we add up the costs -- medical bills and sick days from asthma and lung diseases, fighting record-breaking wildfires, and severe drought -- it's in the billions of dollars.

Yet polluters don't pay to use our air and our climate as a dumping ground. They do it for free.

We demand Oregon's elected representatives compel accounting for the true cost of greenhouse gases to our families, our communities and our economy. We demand polluters be held accountable and we want to see a price on carbon.
