**Subject:** House Bill 2666

Dear Chair Clem and Members of the Committee:

I was shocked to learn about this bill. This bill restricts the public's right to have input regarding an industrial activity that would negatively impact them. What are you thinking?

This is not the type of legislation we need. Please focus on real problems. The aggregate industry is making up sob stories.

Once an aggregate mine is in place, the land is unusable for farming. We need to retain all the farmland we have!

We should no longer cater to the aggregate industry by allowing them to mine on prime farmland. We don't care if their profit will be less if they have to mine from a quarry instead of farm land.

Please kill this bad bill!

Thank you.
