

I think we will need to close the high school shop class schedules forever, if you want to keep up this self destructive business of promoting these highly illegal bills of attainders. And if you don't understand, place your resignation on the table.

Obviously, I list my objection to such a pathetic attempt to disqualify united states citizens of their inherent liberties.

My I suggest the promoters a more lucrative employment with their foreign minded lobbyists.

Welcome to the liar's den of antitrust missions.

DL Hitt
