**Cc:** Sen Courtney  
**Subject:** Senate Bill 716

Hello,

I am writing as a Washington County resident and business owner (we employ 5 people who live in Washington and Multnomah counties) to register my opposition to SB 716.

Thank you for taking testimony in regards to this bill. My understanding is that despite opinion being overwhelmingly against SB 716, a possible Senate Environment Committee work session has been scheduled for tomorrow. As others have noted, investment in existing industrial land supply, not raw land is what is needed for further economic development in Oregon. I urge you to not hold the work session and to stop SB 716.

Sincerely,

Jeff Mendenhall
