**Impact Explanation:**

Revenue projections based on March 2015 revenue forecast through the 2018-19 fiscal year. Under current law, revenue impact drops to zero in 2018-19 fiscal year and beyond. Strategic Investment Program wage income assumed to grow 6% annually to account for modest job growth and wage growth. However, a major new Strategic Investment Program agreement has the potential to push the General Fund revenue impact well beyond the current impact estimate.
