Dear Members of the Agriculture & Natural Resources Committee:

Please kill HB3515. All I ask of you is to listen to the scientists on this matter... Many of us are playing with ideas based solely on emotions. I am no exception... However, that doesn't always mean I am right. Please listen to the scientists on this matter, and not the big money being thrown around to rip protections from the keystone species that canis lupis is!

Thank you,  
Keith Larson
