**Subject:** Re: HB 3515, prohibits listing gray wolf as threatened or endangered

Hello Ms. Raszka,

I would like to submit a comment for the record with regards to HB 3515 as introduced.

The status of the gray wolf in Oregon IS threatened and/or endangered and listing the species as such will provide for protection of the recently reintroduced Oregon population. They are, or should be, a keystone predator in our state's ecosystems and will help restore balance in prey populations. I support the listing of the gray wolf as threatened or endangered and do not support this bill.

**Representative Frederick** and **Senator Shields**, I ask as one of your constituents that you vote NO on HB 3515 if it comes to a vote.

Thank you all for your time,  
Steve Jetter
