Re: House Bills 3515, 2050, 3140, 3188 and 3514

I am contacting the committee with concern regarding House Bills 3515, 2050, 3140, 3188 and 3514.

I believe these bills unfairly target grey wolves, cougars and other native predators while overlooking the critical role these species play in maintaining healthy ecosystems.

I urge you to oppose these short-sighted, ill consequential bills.

With sincere thanks for your consideration and representation,
