Subject: I oppose House Bills 3515, 2050, 3140, 3188 and 3514.

TO: Oregon House Agriculture & Natural Resources Committee
FROM: William H. Wilson, MD
3635 SW Corbett Ave
Portland, OR 97239
Date: April 15, 2015

I vigorously oppose the five new anti-predator bills in the Oregon Legislature: House Bills 3515, 2050, 3140, 3188 and 3514.

These bills represent an assault on Nature and on the wildness which we treasure in Oregon. The large predators are state and national treasures, to be protected and revered. They do miniscule damage to our economy, many orders of magnitude less than the livestock and meat industries which flagrantly waste water and energy while generating greenhouse gasses.

House Bill 3515, which would prohibit Oregon from ever protecting gray wolves under the state Endangered Species Act, is simply obscene. The other bills are equally cruel, tragic, and ill-considered.

Sincerely,
William H. Wilson, MD
