Subject: Oppose HB3515

Dear Ms. Raszka and the Oregon House Agriculture & Natural Resources Committee:

I strongly OPPOSE HB 3515.

Please DO NOT prevent gray wolves from ever being included on the state's list of threatened or endangered species by passing this legislature. This would be a gross disservice to the people & wildlife of the state; & would also set an uncomfortable precedent for the political 'removal' of state & federal protections on any animal deemed 'inconvenient' by any organization in the future.

Thank you.

Yours respectfully,

Ian Courts.
