**Subject:** please protect wolves

To whom concern,

My name is Miyuki. I saw the story of the list. The wolves need to be protected. Humans are so cruel and selfish. These people who are trying to remove the wolbes from the list, they are only looking at the numbers, rather than understanding the wolves.

I am a Japanese who watches a live webcam to see how wild wolves are doing in a wolf conservation centre every day. I know they are very peaceful animals, harmless and friendly. Like us, they need to kill other animals to feed themselves. they never kill others for fun or control numbers. ONLY human does that stupid things.

I beg you, please please save the wolves.

Kind Regards,  
Miyuki
