Greetings Beth,

I'm so excited by the program these young people have created to help Oregonians and hopefully the world make fast progress on defending our climate from the harm we all presently create.

I encourage you in the strongest terms to help pass the law being proposed by "Oregon Climate" HB 3250.

The news about our beautiful planet is getting scarier every day. How can we wait when everything is at stake?

Please make this happen so we can show the rest of the country and world how some humans can have the courage and foresight to do what is necessary.

Sincerely,

Ken W. Silverman
