Dear members of the Oregon Legislature,

You may have been following the turbulent news about the erosion of democracy in Turkey. We watch with heavy hearts the jailing of journalists critical of the government, expulsion of foreign journalists like Ivan Watson from CNN, the censorship of websites and forced closures of TV stations. I urge you to consider supporting LC 3426 urging Congress to work with Turkish Diplomats, the European Union and other NATO Allies to stop the infringement on the basic human right of a free press which is essential to all democratic societies.

The European Union adopted a similar resolution, and this memorial would urge Congress to adopt and send a companion resolution. The international community is rallying around these basic rights, and we would be honored to have the Oregon Legislature initiate this historic action here in the United States.

If you have any questions, please feel free to contact Rep. Weidner's Office.

I believe this support is important to establish democracy in Turkey that is an essential milestone for the establishment of peace in the Middle East.

Regards

Sema Ozen
