With their beautiful Grand Island farm completely renovated, John and Kristi Heiser celebrated the grand opening of the new pumpkin patch in 2010. With its restored Barn and Corn Dryer Building, which contains a full commercial kitchen, the farm can accommodate most any social event.

"When visiting the pumpkin patch, we strive to provide a wonderful, memorable experience for your entire family. We are delighted to see children and adults having such fun finding that 'perfect pumpkin'."

Our Best Wishes!
