

Hello,

I am writing to say that I firmly oppose this bill and all of its provisions. Background checks are done already for a purchase of a firearm, both from gun show vendors and retail and online gun vendors. The chance that this bill would keep an unlawful person from having or buying a weapon is nil. Even now they don't obey the rules and know they cannot buy a gun thru legal means. All this bill does is punish and prohibit the responsible citizenry.

Oppose this bill!!!
