

I have been a victim of the useless background check system. I have been a Firearms dealer in my past, and have purchased firearms for my business and personal use over the last 3 years here in Oregon, and continually run into a hold from time to time. This makes no sense to me and as I have read even when there is a hold and a person is identified very rarely if ever are they arrested to attempting to purchase a firearm. This bill only will cause our legal citizens more hardship in their legal purchases and will do **ABSOLUTELY NOTHING** to stop the criminals from gaining possession of a firearm. Please use common sense and don't force more useless legislation down the law abiding gun owner!
