Dear Ms. Patrino,

I urge you to recommend passage of HB3470. I am a resident of Jackson County, Oregon.

If environmentalists are wrong about climate change and they get their way, we all look foolish. If climate change deniers are wrong but get their way, human civilization and Earth's ecosphere face catastrophe. Frankly, I'd rather look foolish than dead (or eek out the rest of my days in an American climate change refugee camp somewhere in Alaska).

Very truly yours,

Bruce Harrell
