

To Whom It May concern ... if anyone:

I am writing to urge you to oppose SB 941 as it is written. I favored that when selling a gun one should check a person's driver's license to insure that they had not been convicted of a felony ... guess that made too much sense so was deleted from consideration. Beyond that I fail to see where SB 941 accomplishes anything other than stripping responsible citizens of their constitutional rights. It will do nothing to remove firearms from the hands of criminals ... nothing! It is not enforceable. It is nothing but frosting in an attempt to say we are trying to protect our citizens ... it does not protect them. It only places an additional hardship on those that are trying to be responsible and follow the law. It is merely one step closer to registration, and confiscation, of all firearms. Oppose SB 941.

Thank you,
