

My name is Dale Reed, my wife and I are totally against this bill passing. My wife, as a Democrat, and myself feel this isn't an issue of which party is stronger than the other. As you know this is not an end-all answer to the problem of gun violence. This bill is unenforceable and will lead to the full registration of guns. This bill is against common sense law abiding citizens and is an infringement of our 2nd Amendment Rights. As other countries have seen, outlawing guns altogether has lead to crimes against humanity. We feel this is one reason that our country is still strong and others have not attempted to invaded our homeland.

Sincerely, Dale and Julie Reed
