

This is one of the examples of a very bad bill and if enacted would be even worse than any of the foolish people who are pushing and voting for it. They are telling us commoners that we are not responsible enough to judge for ourselves of the character of people. That may be very true for those who voted for anyone in the legislatures who would vote for such a terrible and controlling bill. The majority of public opinion on this issue is overwhelming and if Representatives vote for it, it only demonstrates that they chose to ignore the real people in this state that they are supposed to represent. I understand that money talks but it often speaks falsely and comes from those who are not citizens of this state. Thank You....Dale Casey, Medford, Oregon.

I can say that I am vehemently against this bill. It can only lead to more confusion and money to administrate and to enforcement. It is a non-nonsensical bill that will make criminals of many gun owners without due process. The current laws would suffice if only they were enforced but this is not the case and making more laws to do so is a ridiculous notion until enforcement of the current laws were carried out as intended. Enforcement of this bill if it becomes a law will result even less, so called safety, for the citizens and the famous little excuse "Its for the children".

I have no idea what I would say to change the vote from anyone but I can say that this is in no way going to be effective and is a waste of time and ink until enforcement of the current laws is done in earnest. Thank You....Dale Casey, Medford, Oregon.
