

Honorable sirs,

What these lefties are trying to do, eventually to have all our guns confiscated, is WRONG! This law is EVIL! I was BORN in Oregon, have lived here my whole life, but now am apparently being forced to move to another state where the CONSTITUTION is honored.

What is it with the democrats that they hate the foundational law of our Republic? All the years growing up we all had guns, we never went on shooting sprees, we never even heard of such a thing. These gun crimes are a part of today because America has turned it's back on the Creator, and the gift He gave us of our Constitution, He gave us the wise men who tried their very best to look into the future, to try to stop things like SB941. They are turning in their graves!

Any law that inhibits our right to keep and bear arms, and by extension to purchase them, is evil! Every gun purchase will cost an average of at least \$30 more each time! How would liberals like to have to pay an extra \$30 for their twisted porn videos, or whatever it is they like to buy, that ISN'T protected by the Constitution? Evil scumsuckers.

Please stop this outrage!

Thanks, the next email you get may be my goodbye, after 65 years in Oregon, our state becomes more and more of a communist "workers paradise" I will have to move to a sane state.
