

Hello

As a native Oregonian I find that the trend toward removing freedoms that the Constitution written by our forefathers has outlined and guaranteed are becoming more and more the norm instead of the outrage that the forefathers would have expressed.

This bill that you are fast tracking through the Oregon House and Senate are appalling. Due to misconception that remove rights from the LAW ABIDING will somehow stop criminal from breaking the law will do anything but stop LAW ABIDING Oregon Citizen from the ability to protect themselves.

I urge you to not simply go with TRENDS and misconception by BILLIONAIRES that have ARMED guards to protect themselves, that knee jerk political action groups forward to have “Feel Good” laws enacted and sound good and would hamper the law abiding citizens of Oregon.

Please do not pass this BAD legislation just to make headlines in the news that your “doing something” doing the wrong thing is not allowing protections or making law abiding citizens criminals by passing a bill that would make them a criminal by passing a firearm down to a loved son or daughter that has been a tradition since the beginning of this great United States of America.

The Constitution was not written to be upended by media attention or Billionaires that live by “Do what I say, not what I do” ,

This is simply the wrong thing to do
