

Dear Sirs and Madams,

I would ask that you refuse to push forward SB 941 for consideration in the House. This is a flawed bill that will do nothing to reduce gun crime but will cause much inconvenience to the honest firearm owner. It would be better to vigorously prosecute the people that use guns to commit crimes. Please get serious about reducing the already lowering gun crime rate by going after the perpetrators not the honest citizen.

Best Regards,
Dick Winningstad
