

I writing you to voice my opinion on SB 941. This and any other laws passed to register, sell, or buy a firearm is just plain laughable.

I'll say it again as so many other s have that you can pass all the laws you want but it will not stop the criminals one bit. You see, they don't care about the laws and most likely are for these laws to be passed so that the law abiding citizens are defenseless.

So to keep this short and sweet, I am in no way in favor of SB 941 and you should be also.
