

Please do not pass this bill. It does nothing other than punish the law abiding citizens. It's ridiculous to be required to have a background check done on a life long friend that I know is not a felon, mentally ill, etc. before loaning him a gun to hunt with, and then to have another done when it's returned to me. It's also ridiculous that I can sell a gun to a family member that I've never seen in my life, who could be the head of the Mafia for all I know, but cannot to a law abiding, life long friend. Nothing in this bill will stop criminals from possessing guns. Nothing! Come on now, let's use some common sense! Thank you!
