

Sirs/Madams:

This bill that is being rushed thru has terrible consequences for everyday citizens that are either unanticipated or more likely planned by the gun control politicians. Processes such as new gun owner and CCW training, holster purchases(where gun must be left to be fit properly), sharing guns at a gun club, storing guns at a neighbors house(in his safe while traveling), having guns repaired, transfer between buyers and sellers ~50 miles from an FFL dealer(common in Oregon) and willing to family members, just to name a few. There are frequent occasions where a NCICS check can take hours and NOT minutes. Consider the impact this will have! This CANNOT be allowed to proceed!

Changing the word TRANSFER to SELL would eliminate many objections to this bill which is a terrible infringement on our citizens rights AND will do nothing but make criminals to many of your employers, the public. Is that what you desire?

Washington states recent passage of a similar bill is just now beginning to be realized as a disaster with serious consequences to the common citizen. The so called thrust of 941 is supposedly to keep guns out of the hands of criminals. They are already NOT ALLOWED TO ACQUIRE OR HAVE GUNS, if current laws were actually being enforced WHICH THEY ARE NOT.

Please use whatever facilities you and those patriotic leaders trying to represent us (rather than to be politically correct) to prevent this bill from becoming a catastrophe in Oregon.

Respectfully.
