

When office holders and state employees swear to uphold the Oregon Constitution, they know that gun rights are part of that Constitution. The purpose of legislation is charged with upholding the law; and allowing all of the freedoms that are embodied in this Oregon Constitution.

Deciding WHO can make or receive a transfer, definitely restricts the law.

Selecting WHERE the firearm can be used doesn't uphold the law; it restricts it.

Defining crimes does uphold the law — because it enforces the law.

Why is this of such importance?

Practically, this bill allows the lawless to disrespect the law. In fact, the last ten murderous shootings were done by felons. Catching and prosecuting crooks should be the primary focus of law enforcement.

Kim Thatcher's amendment addresses this, and more. Do you realize that guns are singled out and not the misuse of drugs, making this a wasted opportunity, don't you agree?

Each bill, each law, each regulation needs to be viewed always through the eyes of the Oregon Constitution. Without it, we suffer as middle ages serfs did under a monarchy.

PLEASE vote NO on SB 941
