

I would like to express my feelings about SB 94:

This bill is riddled with contradictions and unenforceable provisions. If the purpose of your bill is to keep guns away from the bad guy, it will never work. They will always find a way to get a gun if they want one. One of the things I have always thought needed to be done was to make background checks mandatory at gun shows! It just makes no sense to me why that hasn't been done a long time ago! If I were a criminal, that is where I would go to buy a gun! I know I don't have to do a background check there!

Also, over 20 counties have expressed their opposition to this terrible invasion of privacy. Sheriffs have said they oppose it and will not enforce it.

I strongly urge you to say NO to SB 941!
