

Gentlemen ,

As you consider the process of approving SB 941 , please note that my household stands in opposition to the bill , and for that matter all of the anti-gun legislation that is or will be proposed .

Law abiding gun owners should not be targeted by the legislature with the intent of punishing us for owning and private sales . We as responsible firearm owners take seriously the act of selling and exchange., as well as keeping our guns secure from the criminal element .The criminal pays no attention to restrictive/ oppressive gun laws as can be seen in cities like Chicago and for that matter gang members in Portland ignore our existing laws.

Legislation like SB941 should be opposed , as it does nothing to protect the general public .

Sincerely

Robert J. Nicklaus
