

Please do not dismiss the rights of Oregonians with SB 941 ...this law will not prevent criminals from getting guns or killing with other instruments , you are only punishing the law abiding citizens clearly.

I jointly own property with In-Laws & we also have jointly owned rifles to protect our livestock from coyotes & other predators, this law will make me a criminal or force me to buy more guns to become compliant, thats ridiculous and against what your attempting to accomplish. This bill is totally against what Oregonians want and THERE IS NO PROVISIONS FOR INLAWS....Im sorry but this is retarded. The Sherriffs dept is against this and are already saying they wont enforce this bill so why are you going against the wishes of the people you work for? must we recall so many politicians till you get the message your not our gods you work for us.

In closing I would like to suggest a bill to make it Illegal for politicians to be under the influence of ANY anti depressants or other mood altering substances, any one under going treatment for any depression or any physiological issues also may not be legally allowed to participate in making laws of ANY KIND, especially taking away the rights of law abiding citizens.
